It is well known that Randolph has, from mares who never paced any, produced some of the best pacing stock in our section of country, and no doubt if geerlemen would breed their pacing mares to him, he would breed as much pacing stock as any horse.

ON THE RAILROAD.
BEAUTIFUL site for a Town in Woodford county, has been laid off into Lots by the Railroad Company. The tract of land was lately owned by Colonel Francisco, and lies on a permanent stream of water, called Lee's Branch, about midway between Lexington and Frankfort, and equi-distant between Versailles and George-town,—the public road to and from the latter towns, crosses the Railroad through the tract at right angles. Lots in this town will be offered for sale at auction, on the 2c day of May, under the superintendance of a Committee of the Board; one third of the purchase money will be required in hand, and the balance in equal payments at one and two years credit. The position is deemed the most eligible on the line of road for the transaction of business of every kind, and it is be-lieved that mechanics and manufacturers will at ouce perceive the peculiar advantages which it combines. It cannot fail to attract the attention of a sufficient number of persons to make it at once a respectable and flourshing country village, and in the course of a few years, perhaps, one of the largest inland towns in the State. The neigh-borhood is composed of wealthy and enterprising farmers, and the tract of country is unsurpassed in

As I ascended, my scenes became more extensive and diversified; but every object more diminutive. The spectators shrank to Lilliputians; and the horses and carriages on the roads, were like the toys of children. The hills around the city, which form the city boundary of our view when below, sank into the earth and seemed level with the plain; and far beyond them, amidst the vast woods, I could distinguish numerous towns and cultivated spots. The whole scene appeared like an extensive map, spread at my feet:

In our opinion, and in the opinion of a great majority of the people, General ackson is one of those pure patriots who does every thing with a single eye to the welfare of his country. Since he has been in office he has steadily pursued a certain course of policy which he believes conducive to the welfare of his country; and to carry out which a longer eessor should be one who should steadily pursue the same line of conduct he has town in the State pursued? Would he not prefer one whom he knew would persevere to the end in destroying that giant monopoly the U.S. Bank? One who would continue to stand by the people, and oppose all measures calculated to benefit the few at the expense of the many? Who would insist on a strict construction of the constitution, and who would prevent the public treasure from being squandered on works of internal improvements; and finally, one who would maintain the rights, the interests and the honor of his country, and in all things pursue the course which he has marked out? Most certainly. Who, then, that has approved of Gen. Jackson's administration, can object to Mr. Van Buren, for no better reason than because the President is in favor of his election? Gen. Jackson is intimately acquainted with the principles and characters of all the Presidential candidates, and if he considers Mr. Van Buren the best qualified of them to all to take his place, it is the strongest recommendation that gentlemen can have, and one which will not be lost upon the American people. The enemies of Mr. Van Buren may harp about the President's nominating his successor, but this will not weigh a feather with the people; for they are determined that no one shall be placed at the head of the government, whose views of policy are opposed to the present administration, or who would repudiate the doctrines laid down by the President on the great leading questions which now agitate the coun-If General Jackson does give the preference to Mr. Van Buren, it is for the same reason that a great majority of the election, the people have the fullest assu

The votes for Lieut. Governor, and Senators, cannot be ascertained until the meeting of the Legislature. In this town Mr. Engs received about 20 votes more for Lieut. Governor than was given for the Whig Prox; in Warwick, Governor Francis received 22 votes with the Whig Senate, and in North Kingston, received 11 votes with the Administration Senate. The present Senate of the State are pro-

bably re-elected by a very small majority. In the House of Representatives, several changes have taken place; in Warwick, Thomas Remington and Elisha Brown, are elected in place of Bennett Low and Josiah Westcott; and ore Jackson member has been chosen in each of the towns of Coventry and West Greenwich, in opposition to the present members. If no other changes have taken place, the Whigs will have a majority of two in the House of Representatives.

SCHOOL AT BORDENTOWN.

We congratulate the friends of the Church, at Berdentown, in the success which has crewned their laudable efforts in the cause of sound education. The Rev. Samuel Ewing Arnollo, whose advertisement will be in our next, has established a high reputation, as a teacher, during his connection, as Principal, with the Academy at Freeus, including testimonials from Sir Howard Doug-las, Lieutenant Governor of the Province of New Brunswick, from the President and Vice-President of King's College, Windsor, and from the Trustees of the School, over which he presided in that province before his coming to New Jersey, are of the most honorable character. An intimate personal acquaintance with him gives us the highest confidence in his fidelity and success.
